Experience:

Robot Code, Podgorica — *Full-stack Developer*

NOV 2021 - PRESENT

- Monitored server side operations: Domain purchase and connecting with hosting, edited DNS records in response to client requests, resolved troubleshooting and propagation issues.
- Coached junior level developers for best practices and introduced them to new technologies.
- Was involved in website development projects from start to finish: Implemented designed layout, was in communication with clients during and after the development phase, worked with SEO experts for increasing website visibility and successfully sorted any technical errors.
- Adopted new technologies and frameworks that resulted in 50% faster website building for all clients

Bild Studio, Podgorica — *Web Developer*

FEB 2021 - NOV 2021

- Worked on over 30+ projects during my employment
- Developed custom mobile-friendly Wordpress templates and themes to align with site design and branding for clients
- Monitored uptime, used advanced techniques to ensure that all sites performed at maximum capacity
- Developed expertise with custom post types, custom fields, plugins and themes for high-traffic Wordpress sites
- Worked with UX/UI designers to convert the designs to fully functioning websites.

Captain Words, Remote — *Web Developer*

SEP 2020 - FEB 2021

- Ensure cross-browser, cross-platform, and multiple device type compatibility for all web solutions and perform any necessary QA on finished products
- Implemented designed layout with attention to details such as style and size of type, photographs, graphics, animation, etc. for the web and various other media
- Working directly with Project Managers for creating and maintaining project schedules
- Monitor uptime, hosting, and databases to ensure site is performing at maximum capacity
